

To whom it may concern,

Already today the one-sided, non-objective quality of most media (not at F.A.I.R.!) is blaringly obvious! Could anyone deny it? Look around! For example, how many times have we seen the "crater" in New York city? Who knows!?! One thing is for certain, though, it will certainly be seen more times than the remains of an Afghani hospital (and 100 civilians) obliterated by America's "collateral damage."

Isn't it OBVIOUS that this slant (and many others) will only be exacerbated by allowing the Establishment media to take over and/or buy out every little newspaper and/or t.v. station across the land? I would think so!

Hopefully, you see the blatant myopia of going forward with such a policy.

Thanks for your consideration.
